NOMINATE NOW for the
2021 Aviva Rosenfeld Award
Excellence in Patient Care in Transplantation

This award has been established in honour of Aviva Rosenfeld, the TSANZ Executive Officer from 1996 to 2015.

This award will recognise an outstanding health care provider who has demonstrated excellence in patient care in transplantation – by putting patients/families first, involving patients in care, communicating effectively and providing compassionate and empathetic care.

The recipient will receive registration to the TSANZ ASM and will receive the award at the virtual TSANZ Annual Dinner being held on **Monday 15 March, 2021**.

Nomination Criteria

Nominations can be made by transplant recipients, donors, donor families and colleagues by **January 15, 2021** via the online nomination form on the TSANZ website <https://tsanz.com.au/awardsandfellowships/>

or by email – tsanz@tsanz.com.au

In 200 words or less, describe how the nominee has demonstrated excellence in providing care to patients and families in transplantation, and how they have made a difference.

Outline excellence in the five following areas -

- ❖ How has the nominee put patients/families first?
- ❖ How has the nominee actively involved patients in their care?
- ❖ How has the nominee demonstrated good communication with patients/families?
- ❖ How has the nominee demonstrated compassion and empathetic care?
- ❖ How have they made a difference to the lives of patients and their families?

Eligibility and Entry Criteria

Any health care provider (including physicians, surgeons, nurses, psychologists, social workers, other allied health professionals) who provides care to patients and families in transplantation can be nominated

- Nominees must be practising in Australia or New Zealand
- Nominees do not have to be a member of TSANZ
- Optional - submit a photo of patient, clinician or both
- The judging panel will include the Award Chairs, a representative of TSANZ council, a representative of Transplant Australia and a patient representative.

Entries will be scored on the following criteria:

- Patient-focussed
- Involvement of patients/families in care
- Patient-centred effective communication
- Compassion and empathetic care
- Demonstrated impact on improved patient care and outcomes
